Every one of the seven secondary schools in Ceredigion, Coleg Ceredigion together with several Work Based providers is cooperating to provide a range of experiences for young people in the 14 – 19 age range. The main aim of the extended provision is to assist all Ceredigion's 14 – 19 learners to reach their full potential.

As a learner within the Ceredigion Network you can expect:

- Your personal learning pathway, which gives you the opportunity to choose from a wide range of courses and qualifications in both Welsh and English. The courses will suit your needs and will assist you in moving on within the school, to further education, training or employment.
- Opportunities to take advantage of different learning methods, perhaps some may be outside school e.g. sport, art, and voluntary work and community activities.
- Core learning experiences, including (in addition to the National Curriculum Key Stage 4 courses for example) basic skills, work based learning, personal and social education and health education.
- Teaching planned for your specific needs, which leads to regular relevant assessments.
- Support from teachers, tutors, Learning Coaches and others such as youth workers in order to help you to improve your standard of work and raise your expectations.
- Impartial careers advice and guidance about the further opportunities available for education (schools and colleges), training and employment. Advice on how to gain entrance to the various Post -16 provisions will be available.
- Information on your entitlements and responsibilities as a learner within the 14 – 19 Network.
- Access to personal support if necessary. This can include information about sources of financial support available to you in the Post-16 phase.
- Full entitlement and equal opportunities to the entire Network's provision, irrespective of your ability, religion, ethnicity or gender.
- The opportunity to ask questions and express an opinion, knowing that someone will listen and respond.
